## **Bernard Vogel Guides Sale of Raisch Products Plant Assets**

### ***Client Prefers Easy Access & Relationship with Seasoned Attorney***

**San Jose, Calif. – June 12, 2007-** Silicon Valley Law Group partner Bernard Vogel announced today his role in the recent sale of certain Raisch Products asphalt plant assets culminating 18 months of strategic financial and corporate legal counsel guidance. Raisch Products sold the asphalt plant assets to Granite Construction Company on June 1, 2007.

“As our trusted strategic partner throughout the entire process, Bernie brought value by thinking outside the box and outside the problem to offer creative solutions,” said Douglas E. Raisch, president and CEO of Raisch Products. “Bernie created a process in which we were able to identify potential acquisition candidates and he diligently worked to facilitate the deal to closure and ensure that it was a win/win for both parties.”

During financial and strategic planning, Mr. Vogel, a corporate attorney and former certified public accountant, assisted Raisch Products in developing and implementing the sale to fuel Raisch’s goal of expanding and growing its core business as manufacturer of recycled roadway and related demolition materials. Raisch plans to meet the increasing demand for ecologically efficient solutions by significantly increasing its supply of construction demolition feedstock of asphalt and concrete recycled materials throughout California and the western states.

“My strategic value was in creatively bringing the deal together and maximizing the value for the seller,” said Mr. Vogel. “Our legal service offers clients real-time, cost-effective solutions that provide quick identification of real issues and responsive problem solving.”

Silicon Valley Law Group is a boutique firm of expert attorneys focused in a half-dozen strategic practice areas who provide direct partner access and relationship to our their clients.

“We prefer the easy access and personal relationship we found with Bernie while handling our business and legal matters over that of large, impersonal firms that delegate the work to junior associates,” said Mr. Raisch. “We were able to tap into the

expertise of other Silicon Valley Law Group expert attorneys, such as environmental, to complete this deal and were impressed by their accessibility and responsiveness.”

Mr. Vogel has provided Raisch Products with estate planning and corporate law expertise for more than 15 years.

#### **About Silicon Valley Law Group**

Silicon Valley Law Group is a highly reputable San Jose firm of expert business lawyers specializing in technology, corporate, securities, real estate and litigation. Attentive, responsive, skilled, experienced, business-oriented partners work directly with clients on strategic matters and transactions. Our partners have a minimum of 25 years of direct business-related legal experience. All of our partners have been named and recognized as “Super Lawyers” by both peers and independent research of *Law & Politics*, an honor awarded to only the top five percent of attorneys in the region. Silicon Valley Law Group is a trusted strategic partner who is results driven, values the client relationship and uses legal tools to solve business problems. [www.svlq.com](http://www.svlq.com)

#### **About Raisch Products**

Raisch Products has been the pioneer of recycling construction and roadway demolition materials since 1985. Raisch boldly moved ahead in this field to become today's nationally preeminent recycler. This expansion is due to the diligent efforts of the Raisch Products staff and its commitment to bringing environmentally safe and competitive alternate products to the industry, while focusing on customer satisfaction. The Raisch name has been a leader in the roadway construction industry since 1849. In the early days the company was based in San Francisco, and focused on building cobblestone streets.
